

Indraprastha Institute of Information Technology, Delhi

IIIT-Delhi - Department of Computer Science & Engineering

Software Engineering - Unit Notes

Course Resource Package

IIIT-Delhi CSE301 Lecture Notes:

- Agile values individuals & interactions, working software, and customer collaboration.
- SRS functional requirements specify what system must do; non-functional specify how.
- Cohesion measures functional strength of module (high cohesion is preferred).
- Coupling measures dependencies between modules (low coupling is preferred).
- Design Patterns (GoF) categorize solutions: Creational, Structural, Behavioral.
