Professional Summary

Experienced Computer Science educator with a strong focus on Data Structures & Algorithms. Passionate about teaching, research, and mentoring students to excel in software engineering and problem-solving.

Work Experience

Professor, Department of CSE
Indian Institute of Information Technology, Kota
2015 – Present

- Teaching Data Structures & Algorithms to undergraduate students.
- Designing curriculum, assignments, and evaluation frameworks.
- Mentoring students in academic and project-based learning.
- Conducting research in algorithms and computational optimization.

Education

Ph.D. in Computer Science – IIT Delhi
M.Tech in Computer Science – NIT Jaipur
B.Tech in Computer Science – Rajasthan Technical University

Skills

- Data Structures & Algorithms
- Competitive Programming
- C++, Python, Java
- Problem Solving & System Design
- Research & Academic Writing

Publications & Research

- Published multiple papers in reputed journals on algorithm optimization.
- Active contributor to academic conferences in Computer Science.

Courses Taught

- Data Structures & Algorithms
- Design and Analysis of Algorithms
- Advanced Programming
